Subject: Asian Longhorned Beetle Tree Survey Program
The Davey Tree Expert Company Notification

Dear Sergeant Kelleher,

The Davey Tree Expert Company/Davey Resource Group, under contract with the United States Department of Agriculture (USDA), in cooperation with the Massachusetts Department of Conservation and Recreation and the Massachusetts Department of Agricultural Resources, will be surveying host trees for the Asian Longhorned Beetle (ALB) within the Town of Auburn, MA, see attached USDA Quarantine Map. The survey areas on the map are denoted with numbered individual Zones outlined in color.

The tree survey started on December 18, 2011 and will continue approximately through January 2013. The scope of the survey is the inspection of host trees within the quarantine zone. The survey work will include ground tree inspectors surveying all host trees in all residential areas, wood lot areas, commercial sites, schools, government facilities and parks. Notifications and access to the residential sites will be coordinated by the USDA and/or Davey staff. All Davey inspector staff will be in a Davey uniform and will be carrying identification. Davey will be utilizing an assortment of passenger cars, pickup trucks and passenger vans that will be clearly marked Davey – Asian Longhorned Beetle Cooperative Eradication Program. We will be notifying each residence in person before a survey starts and will be displaying lawn signs when we are surveying properties to make our presence known.

For questions about the Asian Longhorned Beetle Tree Survey Program, please contact the USDA as follows:

Clint McFarland – USDA ALB Program Manager
United States Department of Agriculture - APHIS
